Dear Professor Suryanarayana:

I am in receipt of your paper entitled "ON
the average order of the function $E(x) =$

$\sum_{n \leq x} \phi(n) - \frac{3x^2}{\pi^2} 3x^2$ (II)" which has been transmitted,

but not communicated, by Erdos. The paper needs
to be refereed. I must also warn you that Ad-
vances in Mathematics has a 4-year backlog.

Sincerely,
